DETAILED ACTION

Allowable Subject Matter

1. Claim 1-8 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art(s) of record, Ramesh et al. (US Pat 6212368), Steudle (US 7133382 B2), Scherzer et al. (US Pat 6799026), and Harano (US Pat 6771944), discloses(s) subject matter common in scope to the present application, e.g., a wireless terminal device having at least two antennas performing diversity reception, including antenna switching and signal level measurement.

But, in agreement with the applicant's arguments and after previously presented amendment to the claims, said prior art(s) fail to disclose temporarily interrupting transmission and reception for a period of time without disconnection in data communication, as required by independent claim 1.

Subsequent dependent claim(s) 2-8 are allowable on the basis that the limitation(s) disclosed by said claim(s) is/are within the scope of the present invention, thus overcoming the rejection supported by cited secondary reference(s).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
